

1) Write testcases on whatsapp.

Test Case Number	Test Case Name	Objective/Summary	Pre-Requisite/Primary Condition	Steps To Be Followed	Test Data	Expected Result
TC_WA_001	Verify login with valid mobile number	Verify successful login	WhatsApp installed	1.Open app 2.Enter mobile number 3.Enter OTP	9876543210, OTP:654321	User should login successfully
TC_WA_002	Verify login with invalid mobile number	Verify invalid number validation	App installed	1.Enter invalid number	12345	Validation error should display
TC_WA_003	Verify invalid OTP	Verify wrong OTP handling	OTP screen open	1.Enter wrong OTP	111111	Incorrect OTP message should appear
TC_WA_004	Verify resend OTP	Verify resend OTP functionality	OTP page available	1.Click resend OTP	N/A	New OTP should be generated
TC_WA_005	Verify profile photo update	Verify user can update profile picture	User logged in	1.Open profile 2.Upload image	profile.jpg	Profile photo should update
TC_WA_006	Verify status upload	Verify status functionality	Internet connected	1.Open status 2.Upload image/video	status.mp4	Status should upload successfully
TC_WA_007	Verify text message sending	Verify sending text message	Contact available	1.Open chat 2.Send message	Hello	Message should send successfully
TC_WA_008	Verify empty message restriction	Verify blank message handling	Chat window open	1.Click send without text	Blank Message	Message should not send
TC_WA_009	Verify emoji message sending	Verify emoji support	Chat window open	1.Send emoji	👍	Emoji should send properly
TC_WA_010	Verify image sharing	Verify image sharing functionality	Gallery permission enabled	1.Select image 2.Send	photo.png	Image should send successfully
TC_WA_011	Verify unsupported file sharing	Verify unsupported file handling	File available	1.Try sending unsupported file	abc.xyz	Unsupported format error should display
TC_WA_012	Verify video sharing	Verify video sending	Storage permission granted	1.Select video 2.Send	video.mp4	Video should send successfully
TC_WA_013	Verify voice message recording	Verify voice note functionality	Microphone permission granted	1.Record voice note 2.Send	Voice Recording	Voice note should send
TC_WA_014	Verify delete message for everyone	Verify delete functionality	Message already sent	1.Select message 2.Click Delete for Everyone	Test Message	Message should delete for all users
TC_WA_015	Verify delete message for me	Verify local delete functionality	Message exists	1.Select message 2.Click Delete for Me	Hello	Message should remove only locally
TC_WA_016	Verify group creation	Verify group chat creation	Contacts available	1.Click new group 2.Add contacts	Friends Group	Group should create successfully
TC_WA_017	Verify adding participant in group	Verify adding members	Group exists	1.Open group 2.Add participant	9876543211	Participant should be added
TC_WA_018	Verify removing participant from group	Verify remove member functionality	Admin rights available	1.Remove member	9876543211	Participant should be removed
TC_WA_019	Verify video call functionality	Verify video calling	Internet connected	1.Start video call	Contact	Video call should connect

Test Case Number	Test Case Name	Objective/Summary	Pre-Requisite/Primary Condition	Steps To Be Followed	Test Data	Expected Result
TC_WA_020	Verify voice call functionality	Verify voice call	Internet available	1.Start voice call	Contact	Voice call should connect
TC_WA_021	Verify call disconnect during no internet	Verify handling network loss	Call connected	1.Disable internet during call	No Internet	Call should disconnect gracefully
TC_WA_022	Verify block contact	Verify blocking functionality	Contact exists	1.Open contact 2.Click Block	Spam Contact	Contact should be blocked
TC_WA_023	Verify unblock contact	Verify unblock functionality	Blocked contact exists	1.Open blocked contacts 2.Unblock	Blocked User	Contact should unblock
TC_WA_024	Verify last seen visibility	Verify privacy settings	User logged in	1.Change last seen setting	Nobody	Last seen should hide
TC_WA_025	Verify read receipts disable	Verify blue tick privacy	Chat available	1.Disable read receipts	OFF	Blue ticks should not appear
TC_WA_026	Verify dark mode support	Verify UI in dark mode	Dark mode enabled	1.Enable dark mode	Dark Theme	UI should display properly
TC_WA_027	Verify backup functionality	Verify chat backup	Google Drive linked	1.Click Backup	Backup Now	Chats should backup successfully
TC_WA_028	Verify restore backup	Verify chat restore	Backup available	1.Reinstall app 2.Restore backup	Previous Backup	Chats should restore
TC_WA_029	Verify app notification	Verify push notification	Internet connected	1.Receive message	Incoming Message	Notification should appear
TC_WA_030	Verify app performance during heavy chat	Verify app stability	Large chats available	1.Open multiple chats quickly	Heavy Chat Data	App should not crash

2) Write testcases on phone.

Test Case Number	Test Case Name	Objective/Summary	Pre-Requisite/Primary Condition	Steps To Be Followed	Test Data	Expected Result
TC_PHONE_001	Verify phone power ON	Verify device powers on correctly	Battery charged	1.Press power button	Power Button	Phone should turn ON
TC_PHONE_002	Verify phone power OFF	Verify device shutdown	Phone ON	1.Press power button 2.Select Power Off	Power Off	Phone should turn OFF
TC_PHONE_003	Verify screen touch response	Verify touchscreen functionality	Phone unlocked	1.Tap multiple apps	Touch Input	Screen should respond correctly
TC_PHONE_004	Verify invalid unlock PIN	Verify wrong PIN validation	Phone locked	1.Enter wrong PIN	9999	Access denied message should display
TC_PHONE_005	Verify valid unlock PIN	Verify device unlock	Phone locked	1.Enter correct PIN	1234	Phone should unlock
TC_PHONE_006	Verify fingerprint unlock	Verify fingerprint sensor works	Fingerprint registered	1.Touch fingerprint sensor	Registered Finger	Phone should unlock
TC_PHONE_007	Verify face unlock	Verify face recognition	Face registered	1.Look at front camera	Registered Face	Phone should unlock
TC_PHONE_008	Verify charging functionality	Verify phone charges properly	Charger available	1.Connect charger	USB Charger	Charging indicator should appear
TC_PHONE_009	Verify charging with damaged cable	Verify invalid charger handling	Damaged cable available	1.Connect damaged cable	Broken Cable	Phone should not charge properly
TC_PHONE_010	Verify battery percentage update	Verify battery percentage changes	Phone charging	1.Observe battery level	Battery 20%	Battery percentage should increase
TC_PHONE_011	Verify calling functionality	Verify outgoing calls	SIM inserted	1.Dial number 2.Call	9876543210	Call should connect
TC_PHONE_012	Verify invalid phone number dialing	Verify invalid number handling	SIM active	1.Dial invalid number	abcd123	Call should not initiate
TC_PHONE_013	Verify incoming call reception	Verify incoming calls	Network available	1.Receive incoming call	Incoming Call	Phone should ring
TC_PHONE_014	Verify speaker functionality	Verify phone speaker output	Phone ON	1.Play music	Music File	Audio should play clearly
TC_PHONE_015	Verify microphone functionality	Verify microphone input	Voice recorder available	1.Record voice	Voice Recording	Voice should record clearly
TC_PHONE_016	Verify WiFi connectivity	Verify WiFi connection	WiFi available	1.Connect to WiFi	Password: abc@123	Phone should connect successfully
TC_PHONE_017	Verify invalid WiFi password	Verify WiFi password validation	WiFi available	1.Enter wrong password	fsjf123	Connection should fail
TC_PHONE_018	Verify Bluetooth pairing	Verify Bluetooth functionality	Bluetooth enabled	1.Pair device	Bluetooth Earbuds	Pairing should succeed
TC_PHONE_019	Verify camera functionality	Verify rear camera works	Camera app installed	1.Open camera 2.Capture photo	Photo.jpg	Photo should capture
TC_PHONE_020	Verify front camera functionality	Verify selfie camera	Camera app available	1.Switch to front camera	Selfie Mode	Front camera should work
TC_PHONE_021	Verify video recording	Verify video capture	Storage available	1.Record video	Video.mp4	Video should save successfully
TC_PHONE_022	Verify storage full handling	Verify low storage behavior	Storage almost full	1.Try recording video	Low Storage	Warning message should display
TC_PHONE_023	Verify app installation	Verify app install functionality	Internet connected	1.Install app from store	WhatsApp	App should install successfully
TC_PHONE_024	Verify app uninstall	Verify app removal	App installed	1.Uninstall app	Calculator App	App should uninstall
TC_PHONE_025	Verify screen rotation	Verify auto rotate functionality	Auto rotate ON	1.Rotate phone	Landscape	Screen should rotate

Test Case Number	Test Case Name	Objective/Summary	Pre-Requisite/Primary Condition	Steps To Be Followed	Test Data	Expected Result
TC_PHONE_026	Verify airplane mode	Verify airplane mode functionality	Phone ON	1.Enable airplane mode	Airplane Mode	Network should disconnect
TC_PHONE_027	Verify screenshot capture	Verify screenshot functionality	Phone unlocked	1.Press screenshot keys	Screenshot Action	Screenshot should capture
TC_PHONE_028	Verify low battery warning	Verify low battery alert	Battery below 15%	1.Use phone until low battery	10% Battery	Low battery warning should display
TC_PHONE_029	Verify restart functionality	Verify phone restart	Phone ON	1.Select Restart	Restart Option	Phone should reboot successfully
TC_PHONE_030	Verify overheating handling	Verify device stability during long use	Phone in use for long duration	1.Use phone continuously for hours	Heavy Usage	Phone should not crash or overheat excessively
